### Bricks 4 Kidz Model Building

Provider	Learning Exchange
Subject	Math
Grade Level(s)	K-12
Description	<p><u>Title I Parent/Guardian Night: "Bricks 4 Kidz Model Building"</u></p> <p>Bricks 4 Kidz model building is based on the belief that kids learn best when they are participating in activities that make them curious and encourage them to think creatively. Kids and their parents/guardians will participate in an activity centered around building with LEGO Bricks. Families will participate in two hands-on, pre-robotic, motorized LEGO® model builds using a STEM (science, technology, engineering and math) related lesson focused on mathematic principles/problem solving.</p> <p>During each model build, students will participate in a STEM based discussion in relation to the model designed to encourage their creativity. Students will work with a partner and their parent(s)/guardian(s) to build each model and summarize what they learned.</p>
Materials	Bricks 4 Kidz brings all the supplies, sets up and cleans up. Tables will be needed.
Objectives	<ul style="list-style-type: none"> <li>➤ Families will build problem-solving skills through collaborative model building.</li> <li>➤ During building with LEGO® bricks, with a little coaching, families will learn about math/problem solving using specialized components in the provided kits.</li> <li>➤ Parents/guardians will be given tips on motivating their children, persisting at a task and helping them retain more of what they learn by relating lessons to things kids enjoy, like building with LEGO® Bricks.</li> </ul>
Number of Participants	10-100
Session Number Within Series	1
Assessment of Success	Parent/guardian feedback survey
Targeted Semester	Fall or Spring

### Celebration of Learning

Provider	Learning Exchange
Subject	Reading and Math
Grade Level(s)	K-12
Description	<p><u>Title I Parent/Guardian Event: "Celebration of Learning"</u></p> <p>This workshop promotes the involvement of parents/guardians and students through visiting, on a rotating basis, a series of centers featuring hands-on learning strategies to engage and reinforce reading and mathematics/problem solving at home. User-friendly and cost-effective learning materials will be created and shared. Learning Exchange parent/guardian instructors will promote early elementary, upper elementary and secondary level learning. Interactive instructional strategies, as well as math/problem solving and reading content study skills with graphic organizers, will be introduced and be developmentally appropriate. All interactive centers are designed with easy activities for families to duplicate with the resources they have at home. The center activities are also focused on enhancing communication opportunities between parent/guardian and child(ren).</p>
Materials	<p>All materials needed at each learning center will be provided. Families will leave with reading and math materials they can use at home to work with their children to increase classroom achievement in these subject areas. Depending on allocation and time of day (evening or a Saturday), a simple lunch or dinner may be provided for the families.</p>
Objectives	<ul style="list-style-type: none"> <li>➤ Parents/guardians will make and learn how to use materials they can duplicate at home to help their students improve reading skills.</li> <li>➤ Parents/guardians will make and learn how to use materials they can duplicate at home to help their students improve math/problem solving skills.</li> <li>➤ Parents/guardians will learn different strategies they can use at home to help their students improve study skills.</li> </ul>
Number of Participants	40-300
Session Number Within Series	This can be delivered as a single session or part one of a 2-part series. The second session will be held in Spring based on a school's allocation.
Assessment of Success	Parent/guardian feedback summary
Targeted Semester	Fall and Spring

### Common Sense Parenting Class

Provider	Learning Exchange
Subject	Parenting Skills
Grade Level(s)	T-I Parents
Description	<p><u>Title I Parent/Guardian Event</u>: "Common Sense Parenting Strategies"</p> <p>The Common Sense Parenting model is highly interactive and allows parents/guardians to build and practice skills that: foster strong family relationships, prevent and correct misbehavior, use consequences to improve behavior, teach self-control, stay calm, and create predictable family routines. The class also covers how parents/guardians can deal with school problems, teaching parents/guardians strategies to help their kids be more successful at school in their reading and math/problem solving classes, computer use/misuse, and other safety issues that older students face.</p>
Materials	All materials, such as class textbooks, will be provided.
Objectives	<ul style="list-style-type: none"> <li>➤ This model teaches parents how to approach discipline as positive teaching opportunities rather than punishment. <u>When parents/guardians can help their kids stay focused and calm at home they are better at helping them complete reading and math homework.</u> Parents/guardians and students will enjoy the time working together and be more successful getting assignments completed.</li> <li>➤ Parents/guardians will also be able to make a step by step action plan they can use in their homes.</li> </ul>
Number of Participants	5-45
Session Number Within Series	This will be an on-going class running once or twice a week for 4-6 weeks in a semester, depending on a school's allocation.
Assessment of Success	Parent /guardian feedback summary
Targeted Semester	Fall or Spring

### Creating Learning Opportunities at Home

Provider	Learning Exchange
Subject	Literacy (Reading and Writing) and Math
Grade Level(s)	K-12
Description	<p><u>Title I Parent/Guardian Night: "Creating Learning Opportunities at Home"</u></p> <p>Discover how to create fun learning opportunities every day in your home. This session will provide parents/guardians with ideas for engaging children in a variety of subject areas at any level. Because parents/guardians are the most influential people in a child's life, they can make the most difference when it comes to helping a child reach his/her potential in reading, writing and math. Make-and-take activities will be provided along with a variety of cost and time effective methods that are easy to incorporate at home. Whether parents/guardians are looking to help their child during the school year or summer, parents/guardians will come away with new tools and resources that will turn learning into fun family experiences!</p>
Materials	All materials (paper, scissors, dice and other items required for the "make-and-take") and refreshments will be provided.
Objectives	<ul style="list-style-type: none"> <li>➤ Parents/guardians will understand how to use everyday opportunities to create learning opportunities at home to increase literacy and math skills.</li> <li>➤ Parents/guardians will learn how to identify their child's learning style.</li> <li>➤ Parents/guardians will be able to create easy, inexpensive and interactive activities to enrich their child's vocabulary and basic math skills.</li> </ul>

**“Do the Math” To Better Support Your Child At Home**

Provider	Learning Exchange
Subject	Math
Grade Level(s)	K-12
Description	<p><u>Title I Parent/Guardian Workshop: “Do the Math”</u></p> <p>Math is one of the most critical skills our children develop and can be a tough one for parents/guardians to support at home. Come join us to learn about the latest information on how teachers are preparing our children with the best instructional methods and how we can support our children to develop confidence in their math ability. This fun filled mathematics evening will allow parents/guardians to experience the mathematics that their children are engaging in at school. This conversation about math also leads to opportunities to foster a child(ren)'s problem solving skills. Come to meet with other parents/guardians that want to overcome the "I hate math" culture with a "math is fun" attitude!</p>
Materials	All materials provided
Objectives	<ul style="list-style-type: none"> <li>➤ Parents/guardians will gain an understanding of all the information that is collected at school to assess their child's progress in math</li> <li>➤ Parents/guardians will participate in hands on math experiences to see what their children are doing in school and gain confidence in their ability to support their child(ren)'s math development</li> </ul>

### Math Detectives

Provider	Learning Exchange
Subject	Math
Grade Level(s)	K-6
Description	<p><u>Title I Parent/Guardian Workshop: "Math Detectives"</u></p> <p>Do you want to practice being a MATH detective? Together we will learn multiple ways to help solve a variety of math problems. We will also search for math word clues that will help us break the number story code. Our study will help make number stories seem like less of a mystery! It can sound complicated but in a fun and easy way parents will learn multiple addition/subtraction algorithms including partial sum and "boxing in" strategies.</p>
Materials	All materials (paper, scissors and other items needed) will be provided. Snacks will be provided.
Objectives	<ul style="list-style-type: none"> <li>➤ Families will get practice using graphic organizers for math</li> <li>➤ Parents/guardians will get tips on incorporating the use of color-coding mathematical word clues</li> <li>➤ Families will dig deep into multiple addition/subtraction algorithms including partial sum and "boxing in"</li> </ul>
Number of Participants	5-120
Session Number Within Series	1

### Family Night: Read-to-Me Book Club

Provider	Learning Exchange
Subject	Reading
Grade Level(s)	K-12
Description	<p><u>Title I Parent/Guardian Workshop: "Family Night: Read-to-Me Book Club"</u></p> <p>Grade school through high school book club. The book club process encourages and supports parent/guardian efforts in shared literacy and the importance of reading.</p>
Materials	Books, spiral notebooks, pens/pencils, snacks will be provided.
Objectives	<ul style="list-style-type: none"> <li>➤ Facilitator will introduce books and outline for the reading series to the participants. This will be a campus-wide activity, including T-I students in grades K-12.</li> <li>➤ Grades K-2 will participate in the Read-to-Me Series of phonetic and beginner reading materials.</li> <li>➤ Grades 3-7 will participate in reading level-appropriate books geared toward strengthening vocabulary, identifying story structure and a focus on comprehension strategies.</li> <li>➤ Grades 8-12 will engage in reading-level appropriate literature that will spark dialogue between the students and parent/guardians regarding context, vocabulary, writing style, etc. with the intent of encouraging critical thinking and problem solving. *Note: 8<sup>th</sup> graders are included with high school students to encourage literary support/mentoring in preparation and in looking forward to high school reading strategies/techniques. Each event will be set up to promote student chapter reading to parents/guardians and vice versa over the course of a week.</li> <li>➤ Facilitators will engage student/parent/guardian groups in discussions regarding the assigned chapters, outlining age-appropriate questions about the stories, answering questions and addressing any difficulties faced in reading the selection.</li> <li>➤ Each session will end with the reading assignment for the next session. Parents will also be asked questions about the text to ensure parent involvement in reading and sharing the text with the child.</li> <li>➤ The final Club meeting will consist of viewing the movie for those series of books that have a corresponding movie. This will allow participants to compare the literary work to the movie, highlighting differences with hopes of encouraging a preference to read over viewing movies.</li> </ul>
Number of Participants	5-120

### Testing Takes Two—Your Child and You

Provider	Learning Exchange
Subject	Test Taking Tips
Grade Level(s)	K-6
Description	<p><u>Title I Parent/Guardian Night</u>: “Testing Takes Two—Your Child and You”</p> <p>Teachers know the “tricks of the trade” and do everything they can to help prepare your child for standardized tests. What can parents/guardians do to help prepare their child and calm their jitters? It may be your child taking the tests but you’re the one who needs to help your child through it. Parents/guardians and their child(ren) are encouraged to come and participate in this workshop. They will be better equipped to help their children reach higher levels of academic achievement by learning strategies to help their children read, think and problem solve, both in and out of the classroom.</p>
Materials	Handouts will be provided. Refreshments will be served.
Objectives	<ul style="list-style-type: none"> <li>➤ Parents/guardians will find out how to help their child prepare for standardized tests at school.</li> <li>➤ Parents/guardians will learn how to “talk like a test creator” and learn the verbiage of the test makers.</li> <li>➤ Parents/guardians will discover how to create a reading, thinking and problem solving environment in the home.</li> <li>➤ Parents/guardians will learn key strategies to help their children sharpen skills.</li> <li>➤ Parents/guardians will come away with tips for motivating reluctant learners.</li> <li>➤ Parents/guardians will hear test taking tips to help improve both math and literacy.</li> </ul>
Number of Participants	5-100
Session Number Within Series	1
Assessment of Success	<ul style="list-style-type: none"> <li>➤ Parent/guardian feedback summary</li> </ul>
